

Seal Integrity Tester

Model PSIT - 60

Presto's Seal Integrity tester is an entirely pneumatic machine that provides compressive buckling weight in digital format. It had a digital touch screen display with a high end and sophisticated read out. The specimens need to be placed between two holders for testing.

- Excellent system control with latest HMI touchscreen
- Program profile for selecting test parameters and performing the test.
- Current test running status display
- Highly accurate test results under pneumatic pressure control.
- Strong clamping mechanism for performing tests
- Fully automatic test after easy settings
- Robust Construction
- Pressure Vs Time graph of the output
- USB option available for storing test data
- Easy to access Inbuilt self-calibration facility

Key Specifications:

Pressure test range	40 to 135 psi
Display	HMI TFT colour screen 7"
Accuracy	± 2% at full range.
Power	220 V AC, 5 Amp., Single phase, 50 Hz
Input Pressure Unit	Psi (Changeable mpa, kpa, bar)
Max Stroke	999999 Stroke
Load hold time	9999 sec.

Highlights:

Pressure Hold Facility	Yes
Material	Mild Steel / Stainless Steel
Finish	Powder coated Havel Gray & Blue combination finish and bright chrome / zincplating for corrosion resistant finish
Test Status	Ok / Not Ok
Safety cover	Yes
Liquid collection tray	Yes

- Air compressor line not in our scope of supply
